Freshness with every bite!

Our Company

Sadat Agro-Fruit is based in Egypt since 2007, and its subsidiaries. We're proud of our company and even prouder of the many people who are part of our organization; Sadat Agro-Fruit is international marketer and distributor of high-quality Fruits and vegetables packing from the sea port or airport. We do our best in ensuring that the temperature-sensitive products are kept at the right temperature before reaching the warehouse.

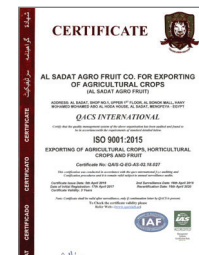

The moment they reach warehouse, they are unloaded in a temperature controlled unloading area and stored at the right temperatures within cold Storage. With high technology machines and equipment, we assure the production, we take very seriously the issues of hygiene, quality control and cold chain management. With the new facility, we can maintain and improve on our standards.

Value Added Services

Sadat Agro-Fruit main focuses are to:

- Supply its customers all over the world with the highest quality products that meet the EU standards and match with the regulations of the imported country.
- Delivering the fresh fruits and vegetables within the shortest transit time to keep its real freshness and quality.
- Always seeking the everlasting business co-operation with its customers, Sadat Agro-Fruit is sharing the market conditions with its customers.
- Complying with the EU quality assurance standards and regulations, specs, packing, pesticide control and product traceability.
- Doing our best to get our customers fully satisfied with our products and services

Lemon Eureka

Available Time

Packaging Information

The lemon constitutes one of nature's seven top sources of potassium, a mineral that promotes clear thinking, aids in normalizing blood pressure and works with sodium to regulate the body's water balance. The distinctive sour taste of lemon juice makes it a key ingredient in drinks and foods such as lemonade and lemon meringue pie.

Mandarins Marcott

Available Time

Packaging Information

The mandarin orange is also known as the Mandarin. Mandarins are smaller and less spherical than common oranges. Mandarins are generally peeled and eaten fresh. The oil of mandarin oranges also improves the circulation of blood and lymph, particularly below the skin, which keeps the skin rejuvenate and looking young and vibrant. This improved circulation also creates warmth and provides relief from rheumatism and arthritis. This also aids growth and boosts immunity.

Straw- berry

Available Time

Dec	Jan	Feb
-----	-----	-----

Packaging Information

Strawberries are grown at SADAT under an integrated crop management system. In order to avoid unnecessary handling; a large proportion of strawberries are field packed and then transferred to the pre-cooling and cold stores facilities at the soft fruit pack house facility at SADAT which is BRC-food certified.

Our strawberries are sun-ripened, vibrantly red and bursting with juicy sweetness.

One cup of our strawberries gives you a whopping 140% of your recommended daily allowance of vitamin C.

We pack and sort our strawberries with high international standards of grading and quality control. The strawberry puree is processed in a subcontracted facility.
